The Bharat Opportunity: Too Many Choices, Too Little Confidence

They Struggle with Choosing the Right One.

TODAY'S EXPERIENCE

- Search "Office Shirt" — Endless catalog options
- 5,000+ products populate the feed
- Compare endlessly with no clear differentiator
- Unsure what is actually worth buying or who to trust
- Ask friends on WhatsApp because algorithms fail them

THE RESULT

- × Decision Fatigue
- × Low Purchase Confidence
- × High Transaction Anxiety

THE DISCOVERY LOOP (WHY IT FAILS)

- 1 Search Query: "Office Shirt"
⋮
- 2 Overwhelmed: 5,000+ choices
⋮
- 3 Resulting State: Confusion 🤔
⋮
- 4 No Trust, No Confidence
Users drop off before reaching checkout.

Opportunity for Myntra

The next wave of Myntra users will come from **Bharat**.

These value-conscious shoppers demand a fundamentally simpler path to purchase over endless catalogs.

- 1 Simpler Discovery & Regional Relevance
- 2 Better Trust & Lower Decision Fatigue
- 3 Occasion-First Motivation

Impact for Myntra

- ✓ Higher Conversion Rate
- ✓ Lower Cart Abandonment
- ✓ Better Product Discovery
- ✓ Increased Customer Trust
- ✓ Higher Bharat Adoption

PROPOSED SOLUTION

RAI – An AI Shopping Concierge Built for Bharat

"Instead of endless browsing, users simply describe what they need in natural language."

THE PARADIGM SHIFT

Transforming the Experience

Potential Impact & Roadmap

For Users

- Reduced decision fatigue
- Personalized shopping experience
- Higher confidence before purchase
- Better regional accessibility

For Myntra

- Higher conversion rates
- Lower cart abandonment
- Increased customer trust
- Better engagement in Tier-2/3
- Improved discovery

Roadmap

-  Voice-first assistant
-  AI size & fit
-  Delivery confidence
-  WhatsApp flow
-  Creator-based picks
-  Shopping memory
-  Seller dashboard

Key Learnings

Understand Intent AI guides, users decide.

Build Trust Transparent logic helps.

Regional Touch Local personalization drives.

Adaptive Flow Smooth discovery Qs.

WHY RAI?

Traditional Shopping vs. Rai

Traditional Shopping

✗ Endless scrolling

✗ Popularity ranking

✗ Generic recommendations

✗ English-first

✗ Black-box AI

✨ Rai Experience

🎯 Intent-first shopping

🎯 ValueIQ ranking

🎯 Personalized recommendations

🎯 Multilingual experience

🎯 Explainable AI

Bharat-First Design

✓ Budget-aware

✓ Occasion-aware

✓ Region-aware

✓ Language-aware

✓ Trust-driven

What Makes Rai Unique?

Intent-First Search

AI understands shopping intent instantly instead of relying on tedious filters.

ValueIQ Ranking

Ranks products using value, quality, trust, and relevance—not just popularity.

Explainable AI

Transparent and explainable recommendations built to increase customer confidence.

Regional Touch

Hyper-regional personalization that makes digital shopping feel genuinely local.

Social Validation

"Ask Someone" social sharing feature that beautifully mirrors real Indian shopping behavior.

THANK YOU

Rai

Shop with confidence, not with 5,000 tabs open.

Helping Bharat shoppers make confident purchase decisions through AI-powered, personalized, and explainable recommendations.

✨ Bharat-First AI

AI-Powered Intent

Instantly decodes user query, style, and occasion needs without overwhelming options.

Personalized ValueIQ

Ranks for trust, quality, and context rules specifically built for smart regional consumers.

Explainable Curation

No black boxes. Honest reasoning and social validation that mirror real Indian shopping habits.
